

BUNGENDORE INFORMATION NIGHT FOR LAND MANAGERS

The Monaro Landscape Connectivity project aims to work with land managers to actively manage patches of native vegetation. Management activities may include:

- Fencing to manage stock access;
- Strategic planting of native trees and shrubs; and
- Controlling exotic plants

The Monaro Landscape Connectivity project will also assist interested land managers to apply Indigenous land management practices to areas of native vegetation and be involved in digital PlaceStories™.

**Come and learn more about this project -
*now being rolled out in 6 regions across the Monaro***

Your land may benefit

Bungendore Council Chambers - 10 Majara St, Bungendore, NSW

Thursday, 1st December 2011 @ 6-7pm

Vista of native grassland and woodland of the Monaro region
