

**ANNUAL GENERAL MEETING and DINNER featuring  
Guest Speaker Cam Wilson from Earth Integral  
and  
SLOW THE FLOW FIELD DAY  
Focusing on low cost erosion control**

Do you have active erosion on your property, or gullies which you would like to start repairing?

Our Slow the Flow field day led by Cam Wilson from Earth Integral will demonstrate how to use low-cost solutions to stop active erosion, kickstart natural repair processes in gullies and begin the rehydration of the surrounding landscape. By using resources from on or around the property low cost techniques are easily replicated by all those who take part.

Using a combination of Cam's practical, design and education background, participants won't just leave with an understanding of how to build a structure, but also how and where they are placed for maximum benefit to the surrounding landscape.

**WHEN:** Tuesday 10th May 10am –2.00pm  
**WHERE:** Chris & Jerry Garner's  
"Silver Springs", 669 Big Springs Road, Wagga  
*Take Big Springs Road and travel approximately 3kms.  
Turn right into the Silver Springs private road and continue  
for 3kms winding up the valley until you reach the woolshed  
where we'll be gathering.*  
**RSVP:** Thursday 5th May  
Mardi Pillow 6928 1321/0428 69281 or mpillow@bigpond.com  
***Free morning tea and lunch will be provided***

Funding is still available for up to \$1,000 per site (*if more than one site, this can be averaged across all sites*). This will fund equipment hire, purchase of rocks/road base, gabion baskets, fencing, geo-textile fabric, fuel, trees & plants, gypsum & soil additives.

Payments will be made to each landholder upon receipt of photo of completed works (before and after) and receipts of good/services being received by Tracey Everett our Treasurer.

**AGM**

Following our field day Cam Wilson will be Guest Speaker for our Annual General Meeting & Dinner later that night.

A delicious two course meal will be included

... **KVLG members—\$15**
