

# KYEAMBA VALLEY LANDCARE GROUP

## WHAT LURKS THE TREES AT NIGHT?

Bring along the whole family to a fun-filled community nightstalk at the Kyeamba TSR to look for possums, owls and locally endangered squirrel gliders.

The evening will begin with a free BBQ, followed by a short presentation from Mason Crane and Clare Crane, Australian National University, about the birds, animals and lizards that live on our farms.

After the presentation we will head off into the night in search of creatures of the night.
