

Native Bees and other bugs for pollination

– up close and personal with Dr. Megan Halcroft

Temora - Friday 13th October

To book contact Megan Harris on 0499 199 076

Young – Saturday 14th October

To book contact Mikla Lewis on 0499 199 016

Morning tea and lunch included. Cost \$10 per person.

Dr Megan Halcroft specialises in native bees but is also passionate about other beneficial insects in our environment. These workshops will introduce participants to the fascinating world of bees including why bees and other insect pollinators are the driving force behind biodiversity and a balanced ecosystem. The workshops will include:

- pollination and other ecosystem services provided by insects
- how our food security depends on pollinators
- a hands-on component that includes catching and identifying insects
- how to distinguish beneficial and pest insects
- how to protect and support our bees

This activity is part of the Local Landcare Coordinators Initiative

Local Land Services

The Local Landcare Coordinators Initiative is funded by the NSW Government, and is supported through the partnership of Local Land Services and Landcare NSW.
