Kosciuszko to Coast (K2C) consists of eleven natural resource management partners committed to building the resilience, extent and connectedness of natural vegetation and halting the further decline and loss of species across the K2C region (see - www.k2c.org.au). K2C aims to build strong links to the community, local landholders and to extend the partnership through its associate membership program. K2C is a regional partner of the Great Eastern Ranges (GER). K2C would also like to hear back about the usefulness of the information on this list. If you are a plant or seed supplier and wish to be included on this list please contact the K2C Facilitator – Email: facilitator@k2c.org.au or Ph: 0411 402 978 (Version: 8 January 2013)
